

GRANTED PROJECTS FOR LAPBIAT (deadline of 30th November 2001)

Station	Title of the project	Origin of User	# persons	# mandays	Period
KIL	Population dynamics of northern small rodents: statistical modelling of long-term data	Univ. Oslo Norway	4	60	Year 2002
	Studies of microparasites on wild rodents from Northern Scandinavia	Univ. Liverpool UK	3	21	9.-15.9.02
	Ecological and behavioural investigations on the herpetofauna of Kilpisjärvi	Eötvös Univ. Hungary	3	81	20.5.-19.7.02
	Palaeoenvironmental and palaeoclimatic reconstruction of Lapland environments using fossil plant pigments and other biological remains	CNR institute Verbania Pallantsa Italy	2	24	8.-20.4.02
	Response of European mountain lakes to environmental change, with a focus on climate change and acidification	Institute of Geological Sci. Poland	4	84	21.4.-11.5.02
	Population ecology of subarctic common frogs	Univ. Uppsala Sweden	3	50	15.5.-30.6.02
	Subtotal	6 groups	19	320	
FMI-ARC	Solar induced boreal forest fluorescence experiment - SIBOFLEX	Univ. Louis Pasteur France	7	155	1.4.-30.6.02
	Climatology of the vertical extent of polar stratospheric clouds observed at Sodankylä	Inst. Phys. Atmosph. Germany	1	28	2002 - 03
	Occurrence of positive laminae above Northern Finland	IAP Prague Czech Republic	1	20	10.-29.6.02
	Interhemispheric OCIO polar vortex variability INOVO	INTA Spain	3	42	13.-28.2.02
	Upgrading the automatic SAOZ UV-visible spectrometer for long term monitoring of the ozon layer	CNRS-SA France	2	14	Feb-Mar 02
	Subtotal	5 groups	14	259	
SGO	Numerical modelling of the Ionospheric Alfvén resonator (IAR) and its effects on ULF waves in the Pc1 frequency range	IAP Prague Czech Republic	1	27	30.5.-25.6.02
	Magnetosphere, atmosphere and cosmic rays in high latitude regions	IEP SAS Slovakia	1	30	May-Jun 02
	Effects of geomagnetic storms on the high latitude F1 region	IAP Prague Czech Republic	1	20	26.5.-15.6.02
	Subtotal	3 groups	3	77	
TOTAL		14 GROUPS	36	656
